

**Consent for Release of Information to
The Canadian Post-M.D. Education Registry (CAPER)**

CAPER (The Canadian Post-M.D. Education Registry) was established in 1986 through the cooperation of national medical organizations with an interest in the post-M.D. clinical education of physicians in Canada.

CAPER collects the names and basic demographic and educational information about International Medical Graduates (IMGs) to support research aimed at understanding and improving the professional lives of internationally trained physicians practicing in Canada.

The IMG project is one of the six recommendations from the Task Force on Licensure of International Medical Graduates created by the Federal / Provincial / Territorial Advisory Committee on Health Delivery and Human Resources.

For a complete description of CAPER, including the details of its privacy code and a list of all licensed users and their approved uses, consult its website at www.caper.ca, or contact:
